October 2024

## Agriculture for the future generations – AGFG

The project aims to empower youth, particularly those aspiring to or currently engaged in agriculture, by fostering inclusivity, diversity, digital empowerment, sustainability awareness, and biodiversity conservation. It aims to enhance their career prospects and contribute to rural and agricultural communities.

The project will produce a comprehensive Training Course for youth in agriculture, ensuring their essential knowledge and skills in farming, breeding, and beekeeping. Pilot testing will refine the course's effectiveness. Content will become Open Educational Resources. The results will promote biodiversity conservation, enhance youth employability and contribute to EU agriculture sustainability.

**In this newsletter  
you can expect:**

**Meet the  
partners**

**What's  
happened so  
far?**

**Meetings -  
events that  
took place**

## Meet the partners

The project is developed by 4 partners from 3 different European countries, aiming to help in bridging the gap between and empower the youth.

### Project Partners:

**Phoenix: Omada anazogonisis kai aeiforou anaptixis  
horion periohis Oreinis Larnakas**

Cyprus

**Enoros Consulting Ltd**

Cyprus

**Asociatia GEO CLUB**

Romania

**GREEN & DIGITAL IDIOTIKI KEFALAIOUCHIKI ETAIREIA**

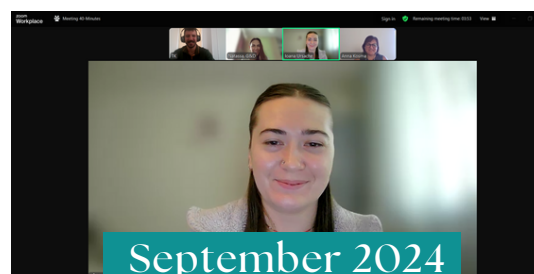

Greece

## What's happened so far?

Our kick-off meeting of Agriculture for the future generations - AGFG project, that took place on May 28-29! (Project n. 2023-3-CY02-KA210-YOU-000178331) 🌱🌍

During these productive sessions, we made important decisions and set the stage for empowering young farmers, breeders, and beekeepers. Our focus is on fostering inclusivity, digital empowerment, and sustainability in agriculture. Together, we're paving the way for a greener, more competitive future in rural communities.

## Meetings - Events

Successfully held their 2nd online meeting last week on 04/10/2024! 🌍

During the session, we discussed the significant progress made so far and planned the next crucial steps toward empowering young people in agriculture. 🚜🌱

From start developing our Training Course to preparing for the upcoming pilot workshops, we're moving closer to achieving our goals of fostering sustainability, digital empowerment, and biodiversity conservation. 🌿🌟

## Next steps

Development of the Training Course:

- Designing curriculum and training materials.
- Digitalizing content with interactive elements.
- Modules covering sustainable agriculture, digital literacy, and entrepreneurship.

Curriculum structure, module development, digital content creation

- Module 1: Introduction to Sustainable Agriculture and EU Policies.
- Module 2: Digital Literacy and ICT Skills for Agricultural Professionals.
- Module 3: Sustainable Agriculture Practices and Biodiversity Conservation.
- Module 4: EU Career Development and Entrepreneurship in Agriculture.
